

General Assembly

February Session, 2000

Raised Bill No. 482

LCO No. 1957

Referred to Committee on Labor and Public Employees

Introduced by:
(LAB)

An Act Concerning The Regulation Of Practitioner Joint Negotiations With Health Benefit Plans.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

1 Section 1. (NEW) The General Assembly finds that joint negotiation
2 by competing practitioners of the healing arts and dentists of certain
3 terms and conditions of contracts with health plans will result in
4 procompetitive effects in the absence of any express or implied threat
5 of retaliatory joint action, such as a boycott or strike by physicians.
6 Although the General Assembly finds that joint negotiations over fees
7 and other terms may in some circumstances yield anticompetitive
8 effects it also recognizes that there are instances in which health plans
9 dominate the market to such a degree that fair negotiations between
10 physicians and the plan are unobtainable absent any joint actions on
11 behalf of practitioners. In these instances, health plans have the ability
12 to virtually dictate the terms of the contracts they offer practitioners.
13 Consequently, the General Assembly finds it appropriate and
14 necessary to authorize joint negotiations on fees and other issues
15 where it determines that such imbalances exist.

16 Sec. 2. (NEW) As used in this act:

17 (1) "Health benefit plan" means a plan subject to regulation by the
18 Insurance Department;

19 (2) "Practitioner" means a practitioner of the healing arts, as defined
20 in section 20-1 of the general statutes, dentist licensed under the
21 provisions of chapter 379 of the general statutes and psychologist
22 licensed under the provisions of chapter 383 of the general statutes;
23 and

24 (3) "Practitioners' representative" means a third party, including a
25 member of the practitioners who will engage in joint negotiations, who
26 is authorized by practitioners to negotiate on their behalf with health
27 benefit plans over contractual terms and conditions affecting such
28 practitioners.

29 Sec. 3. (NEW) (a) This act applies only to health benefit plans that
30 provide benefits for medical, surgical or dental expenses incurred as a
31 result of a health condition, accident or sickness, including an
32 individual, group, blanket or franchise insurance policy or insurance
33 agreement, a group hospital service contract or an individual or group
34 evidence of coverage or similar coverage document that is offered by:
35 (1) An insurance company; (2) a group hospital service corporation; (3)
36 a fraternal benefit society; (4) a stipulated premium insurance
37 company; (5) a reciprocal exchange; (6) a health insurance maintenance
38 organization; (7) a multiple employer welfare agreement; or (8) an
39 employer.

40 (b) This act shall not apply to:

41 (1) A plan that provides coverage: (A) Only for accidental death or
42 dismemberment; (B) for wages or payments in lieu of wages for a
43 period during which an employee is absent from work because of
44 sickness or injury; (C) as a supplement to liability insurance; (D) for
45 credit insurance; (E) only for hospital expenses; or (F) only for
46 indemnity for hospital confinement;

47 (2) A Medicare supplemental policy, as defined by Section
48 1882(g)(1) of the Social Security Act, 42 USC 1395ss, as from time to
49 time amended;

50 (3) Medical payment insurance coverage issued as part of a motor
51 vehicle insurance policy; or

52 (4) A long-term care policy, including a nursing home indemnity
53 policy, unless the Attorney General determines that the policy
54 provides benefit coverage so comprehensive that the policy is a health
55 plan as described by subsection (a) of this section.

56 Sec. 4. (NEW) Competing practitioners within the service area of a
57 health benefit plan may meet and communicate for the purpose of
58 jointly negotiating the following terms and conditions of contracts
59 with a health benefit plan:

60 (1) Practices and procedures to assess and improve the delivery of
61 effective, cost-effective preventive health care services, including
62 childhood immunizations, prenatal care and mammograms and other
63 cancer screening tests or procedures;

64 (2) Practices and procedures to encourage early detection and
65 effective, cost-effective management of diseases and illnesses in
66 children;

67 (3) Practices and procedures to assess and improve the delivery of
68 women's medical and health care, including menopause and
69 osteoporosis;

70 (4) Clinical criteria for effective cost-efficient disease management
71 programs, including diabetes, asthma and cardiovascular disease;

72 (5) Practices and procedures to encourage and promote patient
73 education and treatment compliance, including parental involvement
74 with their children's health care;

75 (6) Practices and procedures to identify, correct and prevent
76 potentially fraudulent activities;

77 (7) Practices and procedures for effective, cost-effective use of
78 outpatient surgery;

79 (8) Clinical practice guidelines and coverage criteria;

80 (9) Administrative procedures, including methods and timing of
81 practitioner payment for services;

82 (10) Dispute resolution procedures relating to disputes between
83 health benefit plans and practitioners;

84 (11) Patient referral procedures;

85 (12) Formulation and application of practitioner reimbursement
86 methodology;

87 (13) Quality assurance programs;

88 (14) Health service utilization procedures;

89 (15) Health practitioner selection and termination criteria; and

90 (16) The inclusion or alteration of terms and conditions to the extent
91 they are the subject of government regulation prohibiting or requiring
92 the particular term or condition in question, provided such restriction
93 does not limit practitioner rights to jointly petition the government for
94 a change in such regulation.

95 Sec. 5. (NEW) Except as provided in section 6 of this act, competing
96 practitioners shall not meet and communicate for the purpose of jointly
97 negotiating the following terms and conditions of contracts with health
98 benefit plans:

99 (1) The fees or prices for services, including those arrived at by
100 applying any reimbursement methodology procedures;

101 (2) The conversion factors in a resource-based relative value scale
102 reimbursement methodology or similar methodologies;

103 (3) The amount of any discount on the fee or price of services to be
104 rendered by practitioners; and

105 (4) The dollar amount of capitation or fixed payment for health
106 services rendered by practitioners to health benefit plan enrollees.

107 Sec. 6. (NEW) (a) Competing practitioners within the service area of
108 a health benefit plan may jointly negotiate the terms and conditions
109 specified in section 5 of this act where the plan has substantial market
110 power and those terms and conditions have already affected or
111 threaten to adversely affect the quality and availability of patient care.
112 The Attorney General shall determine what constitutes substantial
113 market power.

114 (b) The Insurance Department shall have the authority to collect and
115 investigate information necessary to determine, on an annual basis: (1)
116 The average number of covered lives per month per county by every
117 health care entity in the state; and (2) the annual impact, if any, of this
118 act on average practitioner fees in this state.

119 (c) Subsection (a) of this section does not apply to: (1) A Medicaid
120 managed care plan; or (2) a child health plan designed under Section
121 2101, of the Social Security Act, 42 USC 1397aa, as from time to time
122 amended.

123 Sec. 7. (NEW) Competing health care practitioners' exercise of joint
124 negotiations rights granted by sections 4 and 6 of this act shall conform
125 to the following criteria:

126 (1) Practitioners may communicate with each other with respect to
127 the contractual terms and conditions to be negotiated with a health
128 benefit plan;

129 (2) Practitioners may communicate with the third party who is

130 authorized to negotiate on their behalf with health benefit plans over
131 such contractual terms and conditions;

132 (3) The third party is the sole party authorized to negotiate with
133 health benefit plans on behalf of the practitioners as a group;

134 (4) At the option of each practitioner, the practitioners may agree to
135 be bound by the terms and conditions negotiated by the third party
136 authorized to represent their interests;

137 (5) Health benefit plans communicating or negotiating with the
138 practitioners' representatives shall remain free to contract with or offer
139 different contract terms and conditions to individual competing
140 practitioners; and

141 (6) The practitioners' representative shall comply with the
142 provisions of section 8 of this act.

143 Sec. 8. (NEW) Any person or organization proposing to act or acting
144 as a representative of practitioners for the purpose of exercising
145 authority granted under this act shall comply with the following
146 requirements:

147 (1) Before engaging in any joint negotiations with health benefit
148 plans on behalf of practitioners, the representative shall furnish for the
149 Attorney General's approval a report identifying: (A) The
150 representative's name and business address; (B) the names and
151 addresses of the practitioners who will be represented by the identified
152 representative; (C) the relationship of the practitioners requesting joint
153 representation to the total population of practitioners in the applicants'
154 specialty within the geographic service area; (D) the plans with which
155 the representative intends to negotiate on behalf of the identified
156 practitioners; (E) the proposed subject matter of the negotiations or
157 discussions with the identified plans; (F) the representative's plan of
158 operation and procedures to ensure compliance with this section; (G)
159 the expected impact of the negotiations on the quality of patient care;

160 and (H) the benefits of a contract between the identified plan and
161 practitioners;

162 (2) After the parties identified in the initial filing have reached an
163 agreement, the representative shall furnish, for the Attorney General's
164 approval, a copy of the proposed contract and plan of action; and

165 (3) Not later than fourteen days after a plan decision declining
166 negotiations, terminating negotiations or failing to respond to a
167 request for negotiations, the representative shall report to the Attorney
168 General that negotiations have ended. If negotiations resume within
169 sixty days of such notification to the Attorney General, the applicant
170 shall be permitted to renew the previously filed report without
171 submitting a new report for approval.

172 Sec. 9. (NEW) (a) The Attorney General shall either approve or
173 disapprove an initial filing, supplemental filing or a proposed contract
174 not later than thirty days after each filing. If disapproved, the Attorney
175 General shall furnish a written explanation of any deficiencies along
176 with a statement of specific remedial measures as to how such
177 deficiencies may be corrected. A representative who fails to obtain the
178 Attorney General's approval shall be deemed to have acted outside the
179 authority granted under this act.

180 (b) The Attorney General shall approve a request to enter into joint
181 negotiations for a proposed contract if the Attorney General
182 determines that the applicants have demonstrated that the likely
183 benefits resulting from the joint negotiations or proposed contract
184 outweigh the disadvantages attributable to a reduction in competition
185 that may result from the joint negotiations or proposed contract. The
186 Attorney General shall consider practitioner distribution by specialty
187 and its effect on competition. The joint negotiations shall represent no
188 more than thirty per cent of the physicians in a health benefit plan's
189 defined geographic service area except in cases where, in conformance
190 with the other provisions of this subsection, conditions support the
191 approval of a greater or lesser percentage.

192 (c) An approval of the initial filing by the Attorney General shall be
193 effective for all subsequent negotiations between the parties specified
194 in the initial filing.

195 (d) If the Attorney General does not issue a written approval or
196 rejection of an initial filing, supplemental filing or proposed contract
197 within the thirty-day time period specified in subsection (a) of section
198 9 of this act, the applicant shall have the right to petition the superior
199 court for the judicial district of Hartford for a mandamus order
200 requiring the Attorney General to approve or disapprove the contents
201 of the filing.

202 Sec. 10. (NEW) Nothing contained in this act shall be construed to
203 enable practitioners to jointly coordinate any cessation, reduction or
204 limitation of health care services. Practitioners may not meet and
205 communicate for the purpose of jointly negotiating a requirement that
206 a practitioner or group of practitioners, as a condition of the
207 practitioners or groups of practitioners participation in a health benefit
208 plan, must participate in all the products within the same plan.
209 Physicians may not negotiate with the plan to exclude, limit or
210 otherwise restrict nonphysician health care providers from
211 participation in a health benefit plan, unless that restriction, exclusion
212 or limitation is otherwise permitted by law. The representative of the
213 practitioners shall advise practitioners of the provisions of this act and
214 shall warn practitioners of the potential for legal action against
215 practitioners who violate state and federal antitrust laws when acting
216 outside the authority of this act.

217 Sec. 11. (NEW) The Insurance Commissioner, in consultation with
218 the Attorney General, shall adopt regulations in accordance with the
219 provisions of chapter 54 of the general statutes, to implement the
220 provisions of this act.

221 Sec. 12. (NEW) This act shall not be construed to prohibit
222 practitioners from negotiating the terms and conditions of contracts as
223 permitted by other state or federal law.

Statement of Purpose:

To allow practitioners of medicine, osteopathy, chiropractic, podiatry, natureopathy, optometry and dentistry to engage in joint negotiations with health care plans and medical care plans under the supervision of the Insurance Department and Attorney General to ensure procompetitive effects in the terms and conditions of contracts between such practitioners and plans for the benefit of patients.

[Proposed deletions are enclosed in brackets. Proposed additions are indicated by underline, except that when the entire text of a bill or resolution or a section of a bill or resolution is new, it is not underlined.]
